NOTHING TO EAT FOR DINNER

Joan got home late from work today, and she was very hungry. When she opened the refrigerator, she was upset. There was nothing to eat for dinner. Joan sat down and made a shopping list. She needed a head of lettuce, a bunch of carrots, a quart of milk, a dozen eggs, two pounds of tomatoes, half a pound of chicken, and a loaf of bread.

Joan rushed out of the house and drove to the supermarket. When she got there, she was very disappointed. There wasn't any lettuce. There weren't any carrots. There wasn't any milk. There weren't any eggs. There weren't any tomatoes. There wasn't any chicken, and there wasn't any bread.

Yesterday was Sherman and Dorothy Johnson's thirty-fifth wedding anniversary. They went to the Continental Restaurant for dinner. This restaurant is a very special place for Sherman and Dorothy because they went there on their first date thirty-six years ago.

Sherman and Dorothy sat at a quiet romantic table in the corner. They looked at the menu, and then they ordered dinner. For an appetizer, Dorothy ordered a bowl of vegetable soup, and Sherman ordered a glass of tomato juice. For the main course, Dorothy ordered baked chicken with rice, and Sherman ordered broiled fish with potatoes. For dessert, Dorothy ordered a piece of apple pie, and Sherman ordered a bowl of strawberries.

Sherman and Dorothy enjoyed their dinner very much. The soup was delicious, and the tomato juice was fresh. The chicken was wonderful, and the rice was tasty. The fish was fantastic, and the potatoes were excellent. The apple pie was magnificent, and the strawberries were out of this world.

Food Shopping

Everybody eats, and everybody shops for food!

In the past, people shopped for fruits, vegetables, bread, and meat at small food stores and at open markets. Before there were refrigerators, it was difficult to keep food fresh for a long time, so people shopped almost every day.

Life today is very different from the past. Refrigerators keep food fresh so people don't have to shop every day. People also have very busy lives. They have time to shop for food only once or twice a week.

People shop for food in different kinds of places—in small grocery stores, at large supermarkets, and sometimes at enormous wholesale stores that sell food and other items at very low prices. Some people even shop on the Internet. They order food online, and the company delivers it to their home. And in many places around the world, people still shop in little food stores and at open markets. There are certainly many different ways to shop for food these days!

FACT FILE

One Day's Food

Eggs: The world's hens produce more than 2 billion eggs a day—enough eggs to make an omelet the size of the island of Cyprus!

Chocolate: The world produces 8,818 tons of cocoa beans every day—enough to make 700 million chocolate bars!

Rice: The world produces 1.6 million tons of rice every day—an amount the size of Egypt's Great Pyramid!
